PROFILE SUMMARY

B.Tech IT graduate with strong problem-solving skills, hands-on project experience in Deep Learning and Data Analytics, and a passion for learning new technologies. Quick learner, adaptable, and ready to contribute from day one. Eager to grow, take challenges, and deliver results — ready to prove why I'm the right hire.

PROJECTS

MULTI-COMPANY STOCK MARKET PRICE PREDICTION SYSTEM:

Developed a stock market prediction system using Deep Learning techniques to analyze and forecast stock price trends. Integrated historical stock data, technical indicators, and sentiment analysis for improving prediction accuracy. Used colab, Pandas, NumPy, TensorFlow/Keras, and data visualization tools for data preprocessing, model building, and performance evaluation.

MINI PROJECTS:

- Customer Sentimental Analysis
- Three Level AI Password Authentication System
- Birthday BOT – Robotic Process Automation
- CRM-Application for Jewel Management
