Summary

B.Tech IT graduate with strong problem-solving skills hands-on project experience in Deep Learning and Data Analytics, and a passion for learning new technologies. Quick learner, adaptable, and ready to contribute from day one. Eager to grow, take challenges, and deliver results — ready to prove why I'm the right hire.

Education

Bachelor of Technology - Information Technology

Nov 2022 - May 2026

University College Of Engineering, BIT Campus,
Anna University Trichy, Tamil Nadu

CGPA: 8.03 / 10

Projects

MULTI-COMPANY STOCK MARKET PRICE PREDICTION SYSTEM:

Developed a stock market prediction system using Deep Learning techniques to analyze and forecast stock price trends. Integrated historical stock data, technical indicators, and sentiment analysis for improving prediction accuracy. Used Python, Pandas, NumPy, TensorFlow/Keras, and data visualization tools for data preprocessing, model building, and performance evaluation.

MINI PROJECTS:

- **Customer Sentimental Analysis** - Built a system to analyze customer reviews and classify them as positive, negative, or neutral using Python and NLP.
- **Birthday BOT – Robotic Process Automation** - Developed an automated Birthday BOT using UiPath to send personalized birthday emails to employees.
- **CRM-Application for Jewel Management** - Created a Salesforce CRM application to manage customer details, inventory, billing, and orders.
- **Three Level AI Password Authentication System** - Developed an AI-based authentication system with password validation and secure data protection using SHA-256.

Skills

- **Programming Languages:** Java, C, Python, HTML, CSS, JavaScript
- **Designing Tools:** UI/UX, Figma
- **AI & Data Analytics:** Deep learning, NLP, Sentimental Analysis
- **Cloud & Tools:** AWS, Google colab, UiPath, Github
- **Databases:** MySQL

Soft Skills: Communication, Time Management, Creativity, Collaboration
