SOFT SKILLS

- Problem Solving
- Communication
- Team Collaboration
- Adaptability
- Time Management
- Creativity

TECH SKILLS

- Java
- Python
- C
- Data Analytics
- MySQL
- Deep Learning
- AI & ML
- Web Development
- UI / UX

CERTIFICATIONS

- UI/UX for BEGINNERS
 - Great Learning
- Data science - Cognitive Class
 - IBM

CAREER OBJECTIVE

Highly motivated IT graduate skilled in Java, Python, AI, Deep Learning, and Data Analytics. Experienced in developing AI-based forecasting models and automation solutions through academic projects and internship training. Seeking an entry-level opportunity to contribute technical skills, problem solving abilities, and adaptability in a growth-oriented organization.

EDUCATION

Bachelor of Technology in Information Technology

2022 - 2026

University College of Engineering, BIT Campus,
Anna University, Trichy

CGPA: 8.03 / 10

PROJECTS

Stock Market Price Prediction System

JAN 2026 - MAY 2026

- Developed a Deep Learning model to predict stock market trends using historical data and technical indicators.
- Enhanced prediction efficiency by 95.46% through sentiment analysis, Deep Learning model and performance optimization.

Technologies Used: Google Colab, TensorFlow, Pandas, NumPy

CRM Application for Jewel Management

FEB 2024 - APR 2024

- Designed a Salesforce CRM application for customer management, billing, inventory tracking, and order handling.
- Improved operational efficiency through centralized data management features.

Technologies Used: Salesforce CRM, Database Management, Cloud Platform

INTERNSHIP EXPERIENCE

GR Soft Tech

Jul 2025 - Aug 2025

Domain: Artificial Intelligence

- Developed a Three-Level AI Password Authentication System with AI-based password validation.
- Achieved 89% authentication accuracy using multi-layer security features.

Technologies Used: Python, TensorFlow, NumPy, SHA-256, ML
